

Huge congratulations to Haytham and Fred who took part in last night's Milton Keynes Schools Parliamentary Debate Competition final at the Houses of Parliament. We are super proud of the boys efforts and the staff team who have supported them throughout the whole process.

Yesterday we were delighted to invite The Smallpeice Trust and Red Bull F1 to provide our Y10 product designers with a day of STEM (science, technology, engineering and mathematics).

The cohort were engaged throughout, exploring the art of design, failure, reflection, development and success – turning ideas into fully functioning F1 model cars.

Our STEMers discussed engineering with a range of professionals across the industry and were able to handle Max Verstappen's racing gear, helmet and steering wheel!

All teams performed well, and completed the challenge. Our winners were gifted wonderful prizes from Red Bull.

Thank you to Smallpeice Trust, Red Bull and our brilliant product design team for putting on an inspiring day for our students.

Today we are delighted to announce that we have been awarded the prestigious School Games Platinum Award for participation and contribution to sport !! Every year, schools can apply to be considered for bronze/silver/gold award marks from School Games.

We have successfully achieved a Gold Award Mark for 5 consecutive years and this year we are delighted to have been awarded the highest level, Platinum Mark Award.

This is no mean feat, as a Platinum Mark is only awarded to a handful of schools nationwide, who have consistently achieved a Gold Mark in four previous years and have shown consistent dedication to sport and activity in their region.

As you are aware we love celebrating our students successes and today is no exception.

Huge congratulations to Lauren and Poppy who achieved their full sports colors ties and Indy who received his half colors tie.

All three of you are superstars !

Today we are excited to announce Culture Day is returning and will once again celebrate the vibrant diversity of our school community. Its aim remains for all students to be able to express their cultural identity, learn more about their own and each other's wider cultures and develop cultural competency.

This week will see us allocate our 1000th iPad to students.

Our drive is to provide 'digital equity' for all our students and ensure they experience high quality learning experiences.

Every student who registers an interest in our scheme receives the device and technical support in setting them up and familiarising themselves with the basic functions.

They also receive personalised tuition in Microsoft Teams and OneDrive to support our Home Learning Strategy.
