

They came, they saw, they conquered !

Huge congratulations to our staff team that climbed Snowden this weekend.

It's official ! [#mkcan](#)

Milton Keynes Food Bank has achieved the Guinness World Record with over 102,400 cans.

MK Food Bank with the help of local organisations and the public, formed a line made of 102,447 food cans. The record to beat, set back in 2014, was 44,966 cans. Huge congratulations to everyone who organised this incredible event - it was a privilege for us to be involved.

Today we continued our Radcliffe Transition Roadshow and visited Haversham and Hanslope schools to meet all of their Year 6 students. All of the students were able to ask members of the Senior Leadership Team questions about The Radcliffe and moving up to secondary school and all were excited following our visit. They were also wowed by Mrs Lawson who donned a Lab coat for the day and performed a Science experiment, much to their delight

Today our Art department started their prep for our 2023 Remembrance project. We can't wait to see how their work progresses as their annual installations are always incredible.

Last night was a real scream at our annual Spooky Evening. Our Year 7 students had great fun taking part in making trick or treat bags, spooky storytelling and visiting a mad scientist's laboratory. We even had ex student Kyle and his sister come in to DJ for us!

Today we took a large group of year seven students to the MK STEM Festival. The students were specially selected due to their enthusiasm and aptitude in STEM subjects, the day did not disappoint. We had stalls such as Red Bull, Niftylift, Tesla and a whole array of artificial intelligence, virtual reality and robotics on display for our students to interact with. Our students were exemplary with both their behaviour and their ability to demonstrate STEM knowledge and skills. Some even received some special prizes for asking brilliant questions and developing their knowledge. We couldn't be prouder of how they behaved today, and we know that this will leave a lasting memory that will support their STEM careers throughout their time at The Radcliffe School and beyond!

This week saw the first of our new face to face employer encounters. Students in year 11 met with over 20 guests from the world of work and had the opportunity to speed network and discuss careers and employment opportunities. A huge thank you, to all our guests.

Ten Year 10 students a day continue to receive their iPads this week. All of them receive the device and technical support in setting them up and familiarising themselves with the basic functions. They also receive personalised tuition in Microsoft Teams and OneDrive to support our Home Learning Strategy.

Preparations have started for High School Musical
