

CERN 2023.
Radcliffe's Physic Sixth Formers touched down in Geneva, Switzerland, this morning and have not looked back!
The botanical gardens, History of Science Museum, a boat trip on Lake Geneva, time in the Old Town and now a unique meal at Restaurant Eldelwise. Plenty of science and much more to explore tomorrow, including our main attraction... CERN!

This morning we visited the main event, CERN! We were brought up to speed on the history and latest big events going on at the site, before a tour of the experiments. We visited the Information Technology centre, followed by LINAC 4, the very starting point of a protons journey around the Large Hadron Collider. Finally we had a tour of LEIR, an experiment smashing Lead ions at nearly the speed of light. It's aim to replicate the condition of the universe a millionth of a second after the Big Bang! Quality experience, and one that will stay with our students (and staff!) forever. Thank you CERN!

Today we were delighted to launch our brand new Street Dance Troupe.

We are all really excited to have Temmy from MOTUS Dance Company lead this for the rest of the year and can't wait to watch the club and dancers develop into a performance troupe.

Tonight we are delighted to be able to give you a sneaky peek at the latest Year 7 Art project which is paper sculptures of birds. We think they are already looking fantastic and will definitely update you when they are complete

We are delighted to begin the day celebrating our next group of Pixl Edge graduates. Pixl Edge is a national accreditation that recognises young people who excel in Leadership, Organisation, Resilience, Initiative and Communication skills (LORIC). Huge congratulations to Charlie, Owen, Isabella, Joanna, Kate and Charlotte who join the 481 students who have already received their certificates since we began the programme

Huge congratulations to all of our published poets who received their books today.

All of the students who participated in the event gathered today in an assembly to listen to some of the poetry read aloud by staff and celebrate their successes.

Huge thanks to Miss Rooney and the English department for organising the event and ensuring we had the most students work published in the country for this edition

Tonight we launched our Radcliffe Cheerleading club with 47 students attending. The club is run by the supremely talented FirstClass Athletics company and we are delighted to have Chloe and Paige working with our students. All of the girls loved every second of the club and we were all really impressed with their efforts and talents.

Huge congratulations to all of our Year 8 Art competition winners today from McConnell House.

Creativity is hugely important to us as The Radcliffe School and our students repeatedly demonstrate just how right Maya Angelou was when she stated; "You can't use up creativity. The more you use, the more you have."

Today we are delighted to begin a sunny day with the radiant smiles of our latest group of Art competition winners.

Huge congratulations to Melissa, Daisy, Yaishnavi and Evie from Lee House for their prize winning efforts

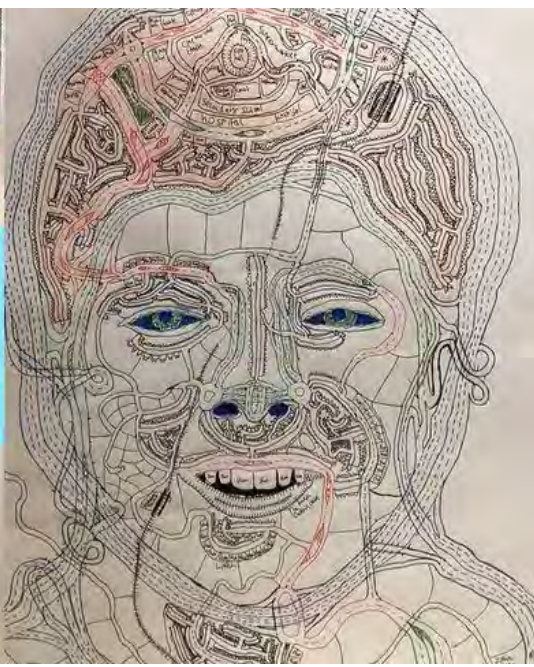

We have kicked off the summer term with rounders fixtures! Our year 9 girls had a great first game in the sun, made some great catches, and came home with their first win of the season. A big congratulations to Jess who earned Managers player, and Molly who was voted players player – they both caught out multiple batters! Keep up the great work girls!

Today we would like to congratulate Jonty on his award winning art in the year 8 competition. Well done Jonty, we are super proud of you, not only for this achievement, but also how you regularly represent the school with your fabulous musical talents.

Fine Art Winners

Yesterday we were delighted to reward our Yr8 Portrait Artist of the Year winners and runners up with a trip to see the latest exhibition at MK Gallery and toast their success with a hot chocolate! The exhibition was an exciting opportunity for the students to see how their 2D portraiture could move into 3D figurative work

Year 8 Awards Trip

Digital Winners

Photo Winners

At The Radcliffe we take an active interest in all of our students hobbies and talents and love to celebrate their successes.

Today we are proud to celebrate Poppy's footballing success as she recently represented MK Dons U12 in Amsterdam and helped win the tournament.

Well done - we are super proud of you

Tonight we were delighted to invite the incredible Temmy from MOTUS back into school to lead our weekly Street Dance Troupe.

There's a real buzz in school around the club and the routines the students are creating with his choreography are fabulous. If any students wish to join please tell them to see Mr Truan for a letter
