

Today we are absolutely delighted to announce that we have been selected as one of three schools to partner with the Aston Martin Aramco Cognizant, Formula One™ Team. Working alongside the team, which is based in Silverstone, will enable our students to experience cutting edge technologies and support across the entire curriculum, with opportunities being planned to include engineer visits, product design challenges, maths lesson input, factory visits and CV workshops.

We feel incredibly privileged to have been selected and truly believe that this will be an exciting venture for the school. With the new F1 season just underway, we wish the Team good luck, and we are loving the look of their new F1 car!

Over the last two evenings we have been delighted to provide over thirty Sports Leaders to help run the MK Primary Schools Indoor Athletics Festival.

We are super proud of all of our students who have given up their time to support the events and also how they are turning the Leadership theory they are gaining from their LORIC tutor group sessions into real life practice.

Every week we really look forward to inviting MOTUS professional dance company in to work with our students. Their expertise is really enabling our students to flourish and build life long skills. Today was no exception

Today we were delighted to be able to invite the incredible FirstClass Athletics team in to showcase their Cheerleading and Ninja skills to over 800 of our students.

We have formed a fabulous partnership with them and are really excited about the clubs they are going to run for our students after Easter.

To be coached by professional choreographers, world champions and England team members is going to be incredible for our students and provide them with a whole host of new, exciting opportunities.

We are so proud of our Year 9 Girls Football team who after an amazing season lost in the MK Schools Final last night.

The girls are a fabulous group of role models who continually display inspirational teamwork skills and a real desire to support each other emotionally and physically. Huge congratulations girls, we are so, so proud of you.

On Monday, the year 7 Girls faced a very strong side for their final game of the season. They fought hard until the final whistle but unfortunately narrowly missed out on the win with a score of 3-2.

The Year 9 Girls also faced Leon for their final game and they remain unbeaten throughout the whole season with a great score of 7-2. Charlotte managed to secure 4 goals and Daisy scored a blinder of a free kick!

We are extremely proud of both teams and they both have a shot of making it to the league finals!

Work continues to progress well on the Lockdown Lives MK performance that we are creating alongside the Living Archive Project. Our students are using transcripts of audio interviews that the Living Archive recorded during Covid to create a series of original songs, films and physical movement and performance poetry pieces to showcase on Tuesday 28th March.

6th FORM LONDON ART TRIP

Our Year 9 Food Tech students have been busy creating delicious Falafel Burgers.

We think they have done a fantastic job.

Random Acts of Kindness week.

Every year Random Acts of Kindness week takes place in mid-February.

It is a week dedicated to kindness and taking that extra step to brighten somebody's day. This year it was held from 12th – 18th February, which was during our half term week.

So, a little later than usual, our A2B group have prepared a presentation for tutors to share this week which gives plenty of ideas for adding kindness to our daily routine – in fact, there are 52 acts, not only for this week but one for each week of the year. It has also been shown that even the smallest actions can have a big impact and kindness helps not only the people around us but has positive health benefits for us too!

Year 7 have had a fabulous start to the morning creating these wonderful scones in Food Tech. Their next big decision of the day is cream or jam first

Today we were delighted to award four more of our students with their Sports Caps Ties. Huge congratulations to Poppy and Olivia for gaining their one stripe tie for 30 caps and Daisy and Ruby for gaining their two stripe ties for 50 caps.

Today we were delighted to be able to reward another group of students for going above and beyond in representing our school at sports fixtures.

Huge congratulations to Kacey, Abdullah and Malayah for gaining their one stripe sports tie for 30 caps and Meda her two stripe tie for 50 caps.

Huge congratulations to Martin, Louisa and Savannah who received their one stripe Sports ties today for achieving 30 Sports caps.

Yesterday Year 9 took part in a KS4 Taster Day; visiting lessons that are part of their options but they have yet to experience in KS3. This includes Business Studies, Child Development, Computer Science, Media, Sociology and Sport as well as a comprehensive Careers session with our very own Mrs Cain.

Year 9 were great, got involved in all the activities and had glowing reviews from the leading staff.

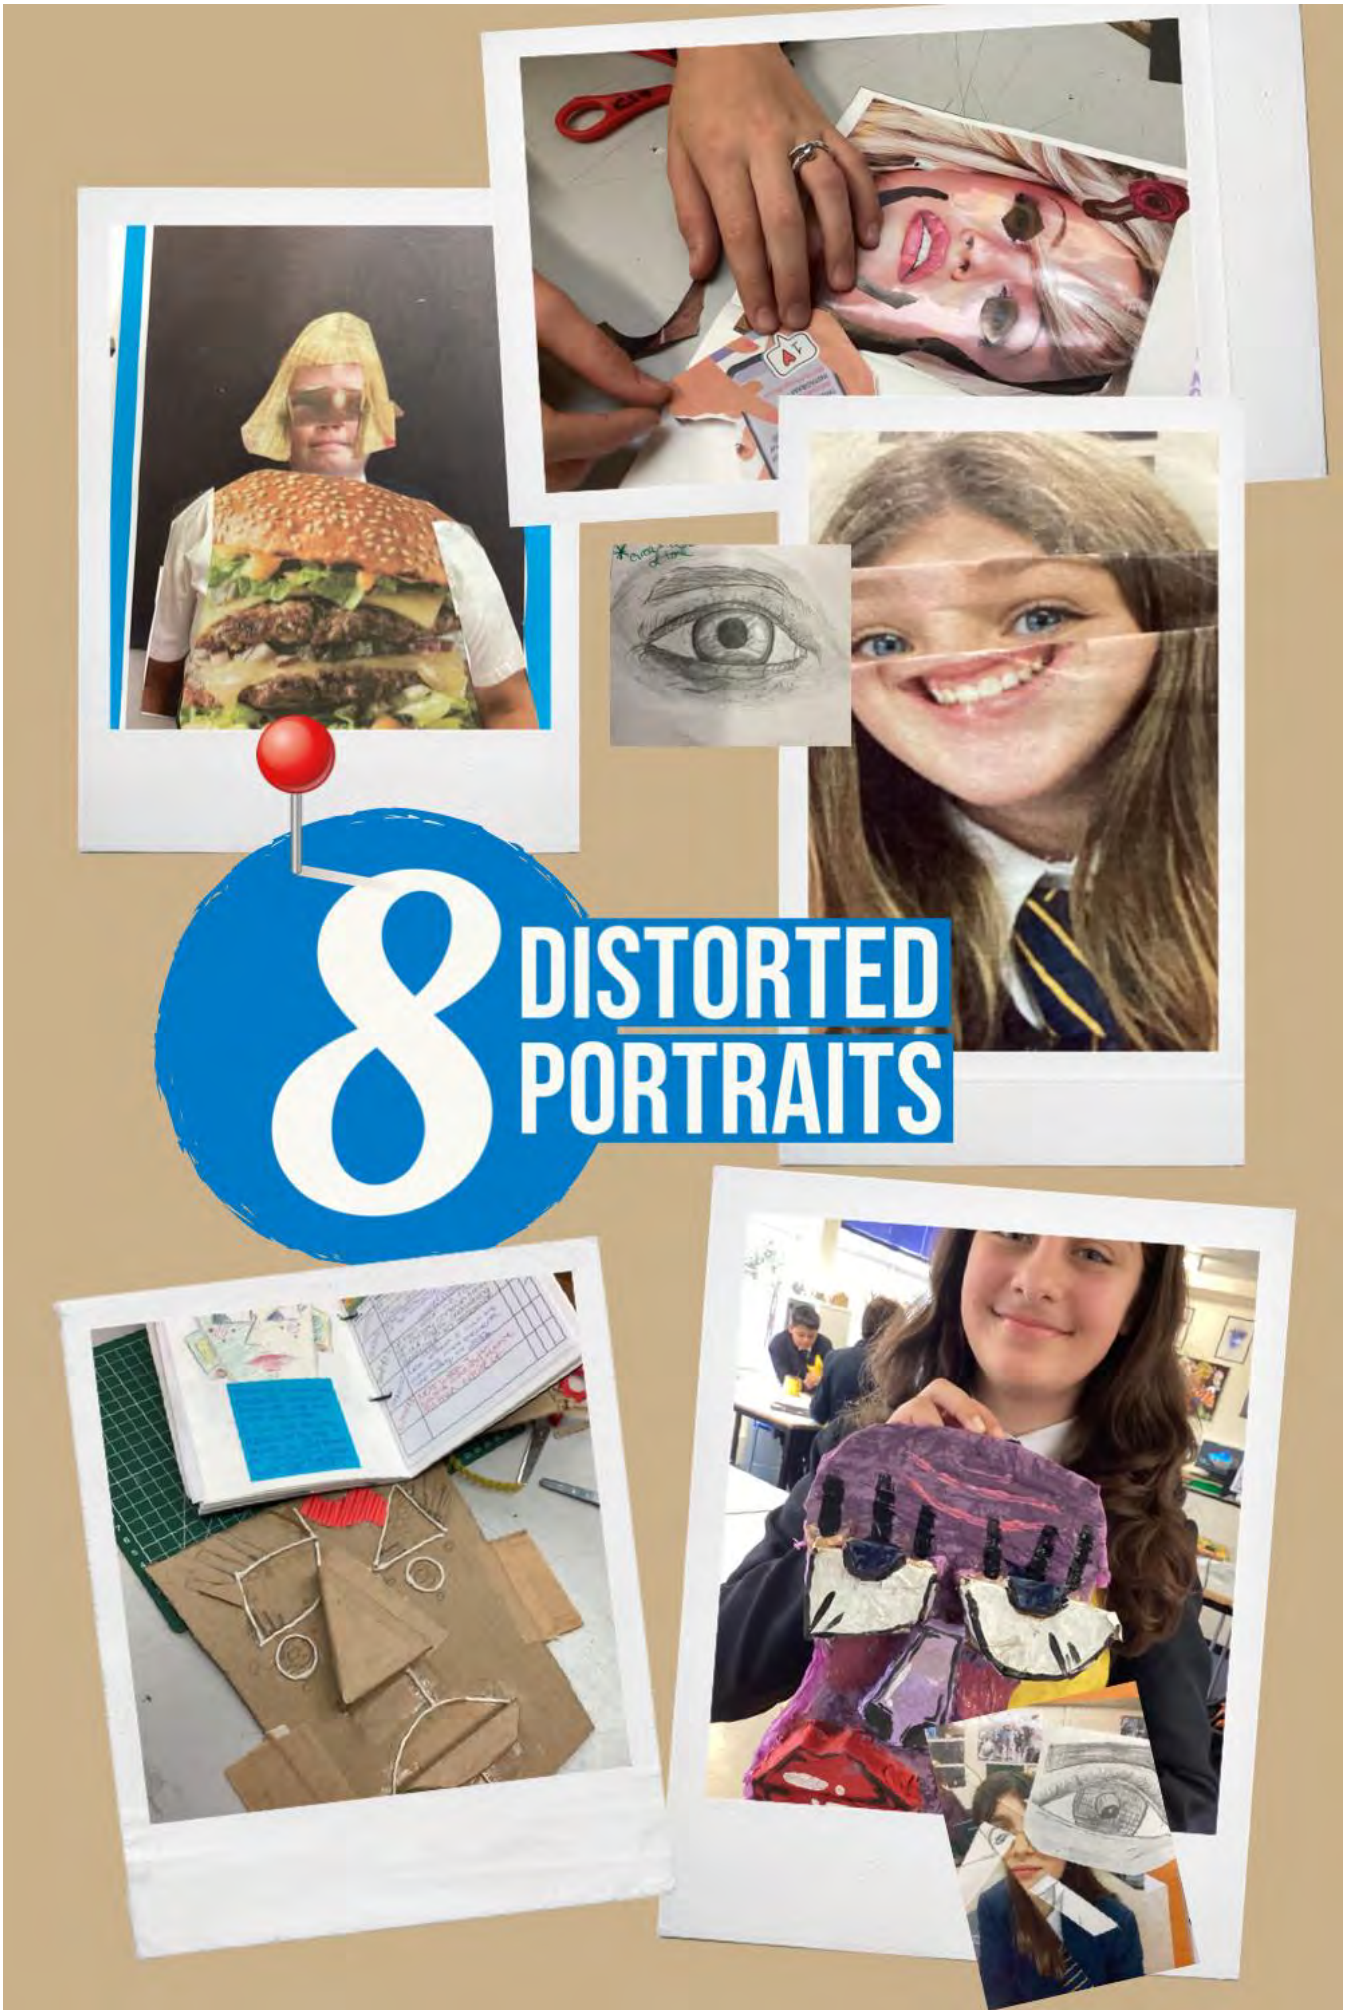

Thank you to everyone involved for making this a useful and enjoyable experience. We all hope this will support our students' choices on Tuesday 18th April.

On that note... Parents and carers of Y9 students will have a received an email regarding joining Options Interviews online. If you would like to receive a TEAMS link for the interview then please do reply to that email or bring the reply slip to Mr Foster-Smith.

Today The Radcliffe Art Department are delighted to be able to showcase some of the fantastic work from across the curriculum and different year groups.

Here is Year 8

Yesterday, a number of students in Year 11, 12 and 13 visited the National Apprenticeship Show, at Marshall Arena. Students were able to network with local employers that are actively looking to recruit local young people into their apprenticeship schemes. A great time was had by all and many students are now making applications.

Yesterday, we were delighted to welcome Santander and STEM ambassador Chris Blackburn, to talk to our Year 10 to Year 13 IT and Computer Science students, on the changes happening in the digital world of banking and the career opportunities available. Chris travelled all the way from Yorkshire to meet with our students! The session was a real revelation of the issues and opportunities in technology. Many thanks to our guests.
